PROFILE

Strategic and goal-driven data analyst with a strong background in data analysis and machine learning. Proven track record of successful project engagement, automation, and problem-solving. Excellent communication skills, team-oriented with leadership qualities, and a passion for continuous learning. Eager to contribute to company growth by translating business needs into technical solutions.

EXPERIENCE

Data Analyst | Ayur2Veda
Feb 2023 - Present

As a data analyst, my primary responsibility involves managing and analyzing patient medical data for companies, strategically aiming to enhance quarterly plan subscriptions and drive sales of healthcare products. Leveraging skills in Natural Language Processing (NLP), Machine Learning (ML), and Python, I apply a problem-solving approach to gain valuable insights. With a commitment to automation and critical thinking, I aim to be a pivotal contributor to the company's growth by translating data into actionable strategies.

Analyst | Careers360
Nov 2021 – Dec 2021

Applied natural language processing techniques to analyze student-executive chat interactions on the blog site. Utilize sentiment analysis tools to categorize and assess sentiments expressed, identifying areas for improvement. Provide actionable insights to enhance the overall user experience, aiming to optimize engagement and satisfaction on the platform.

Data Analyst | Happygifting.co
Mar 2021 – July 2021

Conduct comprehensive analysis of data gathered via Google Forms, categorizing product requests, complaints, and other pertinent data. Generate a detailed report summarizing key findings and identified trends. Deliver actionable recommendations to the upper team, facilitating informed decision-making based on the analysis.
